

# AIEMS

## Associazione Italiana di Epistemologia e Metodologia Sistemiche Italian Association of Systemic Epistemology and Methodology

AIEMS is a non-profit scientific and cultural italian association, founded in 2008 with the aim to expand on and to spread the systemic approach to knowledge and to the professional practices. In this sense, AIEMS intends to give special attention to the educational and sanitary contexts. Since the beginning AIEMS has been culturally very active, and it is now supported by a large group of Onorary Members known as scientists and researchers of national and international importance.

**President:** Sergio Boria

### AIEMS's activities

- Has built its website, that represents a telematic open space of consultation for people interested in systemic approach.
- Has published in its website all the monographic volumes of the biannual telematic scientific journal named *Riflessioni Sistemiche*, that in 2015 has obtained the International Standard Serial Number (ISSN 2281-3373), and that is currently an editorial reference point inside the network of the systemic italian scientists.
- Has organized three National Congress dedicated to the themes of Uncertainty (2010), Interdisciplinarity (2011) and Cure&Care (2013).
- It has been Scientific Partner and Promoter in organizing the Festival of Complexity, which is an italian cultural event involving most of the best systemic scientists and researchers of the national cultural landscape.
- Administers an its own social network group on Facebook, whose members are currently more than 1600, and which is a telematic space of conversation oriented on a specific theme changing year by year. The facebook's group organized a successful Summer study holiday in Umbria every year.
- Starting from 2014 were born some AIEMS's group in different italian cities (Bari, Catania, Foligno, Lerici, Milan, Rome and Turin), whose cultural activities aim to promote the systemic approach.
- It is Associated Member of E.U.S. (European Union for Systemics)
